Result:

This is not a tablet; it is a bottle of eye/ear drops. Here's the information:

1. Identification

The product is a bottle of CIPLOX Eye/Ear Drops, manufactured by Cipla.

2. Detailed Description

- **Name:** CIPLOX Eye/Ear Drops
- **Active Ingredient:** Ciprofloxacin (Concentration not specified in the image)
- **Uses:** Ciprofloxacin eye/ear drops are used to treat bacterial infections affecting the eyes and ears. This typically includes:
 - **Eyes:** Conjunctivitis (pink eye), corneal ulcers
 - **Ears:** Otitis externa (swimmer's ear), otitis media (middle ear infection) - *Note: Ear drop use for otitis media usually requires a confirmed perforation of the eardrum.*
- **Dosage:**
 - The dosage varies depending on the severity and location of the infection.
 - Generally, 1-2 drops are instilled in the affected eye(s) or ear(s) every few hours.
 - It is essential to follow the instructions provided by your doctor or pharmacist.
- **Side Effects:**
 - **Common:** Temporary burning, stinging, or discomfort upon instillation, blurred vision (immediately after use), unpleasant taste in the mouth (if drops reach the back of the throat).
 - **Serious:** Allergic reactions (rash, itching, swelling, severe dizziness, difficulty breathing), worsening of eye/ear infection symptoms.
- **Interactions:**
 - Inform your doctor about all other medications, eye drops, or ear drops you are using.

3. Additional Details

- **Visual Features:** The bottle is white with a teal and white label. It features a water drop graphic and "CIPLOX" in bold letters.
- **Regulatory Status:** The label indicates "RX" meaning it is a prescription medication and requires a valid prescription from a licensed healthcare professional.

4. Important Notes:

- **Concentration:** The image does not specify the concentration of ciprofloxacin in the drops. This is crucial information as dosages can vary.
- **Consult a Doctor:** Do not self-treat eye or ear infections. Always consult a doctor for diagnosis and appropriate treatment.
- **Complete Course:** Use the medication for the full prescribed duration, even if symptoms improve earlier.
- **Storage:** Store eye/ear drops as directed on the packaging.
